NORTHERN HORIZONS MECHANICAL

Northern Horizons is a full-service, American, family owned, union, industrial construction contractor. We employ union millwrights, boilermakers, pipe liners, pipe fitters, laborers, carpenters, operators and iron workers.

Who is Northern Horizons Mechanical?

Our Mission

To create value for our customers through operational excellence and integrating resources safely and efficiently into the mining, manufacturing and shipping industries, oil and gas, power, food industries

Our Vision

We are the leader in innovation and the ambassadors to the environment, delivering solutions effectively and safely to enhance our industry.

Our Values

Safety & Environmentally Responsible: We continuously pursue best-in-class safety and environmental performance.

Integrity: We operate honestly and ethically, so naturally we build solid customer relations through exceptional service.

Innovation: We passionately create solutions and growth opportunities to keep our customers at the forefront of technology.

Sustainability: We embrace our social and environmental responsibilities. We balance business demands with an environmental view toward the future.

Our People: We promote a highly engaged and inclusive work environment where we value diversity, foster teamwork, aggressively develop talent and reward exceptional performance.

Northern Horizons Mechanical is authorized by the American Society of Mechanical Engineers (ASME) for the following work:

- Power Boiler work ("S")
- Pressure Piping ("PP")
- Manufacture of Pressure Vessels ("U")

We are also authorized by the National Board of Boiler and Pressure Vessel Inspectors to perform the following :

- Repairs and alterations to power boilers and pressure vessels ("R")

Our Projects are designed according to customers unique needs, and meet the jurisdictional code requirements. We track Quality using job specific inspection and test plans.

Northern Horizons Mechanical has qualified welding procedures which cover a variety of materials including stainless steel alloys, chrome alloys, titanium, nickel alloys, and aluminum.

We employ craftsman, welders, qualified and experienced in processes, such as SMAW, GTAW, FCAW. Our craftsman are also experienced in heavy equipment rigging, equipment setting and alignment, boiler equipment maintenance, high pressure steam and piping.
